THIS SAFE WORK METHOD	STATEMENT IS APPROVED BY	THE PL OF THE PROJECT	
Under the Work Health and Safety Regulation (WHS Regulation), a person conduct the proposed work starts.	cting a business or undertaking (r 3U) is	required to ture at a safe work method s	tatement (SWMS) is prepared before
Full Name:			
Signature:		Title:	Date:
Details of the person(s) responsible for ensuring implementation, monitoring	compliance of the SWMS well as review	s and modifications of the SWMS.	
Full Name:		Title:	Phone:
ALL PERSONNEL PARTICIPATING IN ANY ACTIVITY ON THIS WMS. ST HAVE THE FOLLOWING COMMUNICATED	N. 1E AND DATED SIGNATURE OF A CO. MUNICATED TO IN THE DEVELO	LL RELEVANT PERSONNEL WHO HAVE B PMENT AND APPROVAL OF THIS SWMS	EEN CONSULTED AND
Safety meetings or toolbox talks will be sched ed in accordance with agislative requirements to first identify any site hazards, conditions those hazards and then to further take steps to either the conditions of the conditions are or conditional talks.	NAME	SIGNATURE	DATE
If an incident or a near miss occurs, all work must structurately. Depending on the severity of the incident, a meeting will be called with all workers to amend the SWMS if required. The meeting may also be an educational opportunity.			
Any changes made to the SWMS after an incident or a near miss must be approved by the Person Conducting Business or Undertaking and communicated to all relevant personnel.			
The SWMS must be kept and be available for inspection at least until the work is completed. Where a SWMS is revised, all versions should be kept. If a notifiable incident occurs in relation to which the SWMS relates, then the SWMS must be kept for at least two years from the occurrence of the notifiable incident.

Note: A SWMS must be reviewed regularly to make sure it remains effective. A SWMS must be reviewed (and revised if necessary) if relevant control measures are revised. The review process should be carried out in consultation with workers (including contractors and subcontractors) who may be affected by the operation of the SWMS and their health and safety representatives who represented that work group at the workplace.

When a SWMS has been revised, the person conducting a business or undertaking must ensure all:

- 1. persons involved in the work are advised that a revision has been made and how they can access the revised SWMS;
- 2. persons who will need to change a work procedure or system as a result of the review are advised of the changes in a way that will enable them to implement their duties consistently with the revised SWMS: and.
- 3. workers that will be involved in the work are provided with the relevant information and instruction that will assist them to understand and implement the revised SWMS.

JOB STEP	POTENTIAL HAZARDS	IR	CONTROL MEASURES	RR	RESPONSIBLE PERSON
SPECIFIC WORK STEPS	HAZARDS THAT MAY ARISE	INITIAL RISK	SPECIFIC MEASURES TO BE PUT IN PLACE TO ELIMINATE OR CONTROL THE RISKS	RESIDUAL RISK	NAME OF PERSON
1. Preparation	Incorrect setup, improper training	зн	Sure, here are the required control measures: - Undertake a thorough risk assessment before strong any project. This will help identify any potential hazards or dangers and is using ways to mitigate them. - Ensure that all employees undertaking we with the horountal band saw have completed proper training sessions and under and the safety procedures involved. - The setup process must always be carried out a trained personnel who have ample experience with the excoment. - Personal Protective Equipment (PPE) should be mix cory including safety glasses, gloves are seened shows whenever using the horizontal band saw. - Strictly following manufacturer's in a uctions of the machinery is essential to make sure locks in good accorded and serving of the machinery is essential to make sure locks in good accorded and type suitable for the cutting operation and material. Use accounts apports for longer or heavier pieces of material to prevent slipping comping furing and repair to avoid accidental start-ups. - Implementation around the workspace to ensure visibility for operator. - In case of any uncertainties or issues related to the machinery or its use, ask for assistance from a supervisor before proceeding with the task.	2M	
2. Inspection	Sharp edges, foreign bodies in materials	2M	 Implement regular inspections and maintenance of the equipment to ensure its proper functionality. Make use of personal protective equipment, such as gloves and safety glasses, to protect against sharp edges and foreign bodies. Train all staff in correct operating procedures including material handling and machine operation to reduce the risk of accidents. Install machine guards and shields to protect operators from sharp edges and flying debris. Implement a clean workspace policy. Ensure that the area around the band saw is regularly cleaned to prevent foreign bodies from accumulating. Clearly label hazardous areas and provide safety instructions to guide workers. Have an emergency plan in place. This should include first aid provision and rapid response to any accidents or injuries. Operate the saw using both hands to maintain control over the material and the cutting process. 	1L	

JOB STEP	POTENTIAL HAZARDS	IR	CONTROL MEASURES	RR	RESPONSIBLE PERSON
SPECIFIC WORK STEPS	HAZARDS THAT MAY ARISE	INITIAL RISK	SPECIFIC MEASURES TO BE PUT IN PLACE TO ELIMINATE OR CONTROL THE RISKS	RESIDUAL RISK	NAME OF PERSON
			- Utilise tools, not hands, to remove unwanted materials or debris after cuttings.		
			- Feed work into a blade against the direction of motion of the blade to prevent kickbacks.		
			- Use appropriate lighting to clearly see the value and materials you are working with, reducing the chances of unwanted surfaces getting mixed in.		
			- Adopt a strict 'zero tolerance' policy towards result in and around the workspace. This will reinforce the seriousness of a fety measures and reduce potential distractions that call had to accidents.		
			- Regularly inspective to cical contections and cords for signs of wear or damage, repairing or recovering as newssary.		
			- Ensure adec, te ground g is prese, mimise the risk of electric shock.		
			- Utiling sidual protection devices (RCD) or safety switches to provide additional protection gainst ctric shock.		
			- Train st. thorou, iv on proper maintenance procedures, including lockouth gould pocess.		
			- sure achine is disconnected from the power supply before beginning any main. At e tasks.		
			ecure an loose components before starting maintenance, using appropriate facining methods.		
3. Maintenance	Electric shock, unstaured components	ЗН	Equip workers with appropriate personal protective equipment (PPE) such as gloves and eye protection when performing maintenance tasks.	2M	
			- Maintain a tidy workspace, removing any tools or equipment not in use to avoid accidental movement or dislodging of parts.		
			- Use only qualified and experienced personnel for maintenance work on the band saw.		
			- Clearly mark the maintenance area, and restrict access to authorised personnel only.		
			- Establish a regular maintenance schedule and stick to it – preventive actions can reduce the risks associated with worn-out or malfunctioning components.		
			- Keep an up-to-date record of all maintenance performed on the band saw.		
			- Report and address immediately any concerns or observations of potential hazards during maintenance.		
			- Create a culture of safety by ensuring open communication about the importance of following safety measures while performing maintenance work on the band saw.		
4. Operation	Noise exposure, vibration risk	3H		1L

SIGNATORIES OF THE SAFE WORK METHOD STATEMENT

The signed and dated personnel listed below have cooperated in the consultation and development of this Safe Work Method Statement which has been approved by the Person/s Conducting a Business or Undertaking (PCBU). In signing this Safe Work Method Statement each individual acknowledges and confirms that they have read this SWMS in full, having raised any questions for items on this Safe Work Method Statement that require clarification, and confirms that they are competent, skilled and knowledgeable for the task assigned to them. Every person acknowledges that they have received the relevant training and qualifications where required, before carrying out any work contained in this Safe Work Method Statement. By signing this Safe Work Method Statement each individual agrees to work safely, to follow any safe work instructions which are provided, and agrees to use all Personal Protective Equipment where appropriate.
