THIS SAFE WORK METHOD	STATEMENT IS APPROVED BY	THE POST THE PROJECT	
Under the Work Health and Safety Regulation (WHS Regulation), a person conduct the proposed work starts.	cting a business or undertaking (r 3U) is	required to ture at a safe work method s	tatement (SWMS) is prepared before
Full Name:			
Signature:		Title:	Date:
Details of the person(s) responsible for ensuring implementation, monitoring a	ompliance of the SWMS well as review	s and modifications of the SWMS.	
Full Name:		Title:	Phone:
ALL PERSONNEL PARTICIPATING IN ANY ACTIVITY ON THIS WMS. ST HAVE THE FOLLOWING COMMUNICATED	N. 1E AND DATED SIGNATURE OF A CO. MUNICATED TO IN THE DEVELO	LL RELEVANT PERSONNEL WHO HAVE B PMENT AND APPROVAL OF THIS SWMS	EEN CONSULTED AND
Safety meetings or toolbox talks will be sched ed in accordance with agislative requirements to first identify any site hazards, conditions those hazards and then to further take steps to either the conditions are or conditions.	NAME	SIGNATURE	DATE
If an incident or a near miss occurs, all work must structurately. Depending on the severity of the incident, a meeting will be called with all workers to amend the SWMS if required. The meeting may also be an educational opportunity.			
Any changes made to the SWMS after an incident or a near miss must be approved by the Person Conducting Business or Undertaking and communicated to all relevant personnel.			
The SWMS must be kept and be available for inspection at least until the work is completed. Where a SWMS is revised, all versions should be kept. If a notifiable incident occurs in relation to which the SWMS relates, then the SWMS must be kept for at least two years from the occurrence of the notifiable incident.

**Note:** A SWMS must be reviewed regularly to make sure it remains effective. A SWMS must be reviewed (and revised if necessary) if relevant control measures are revised. The review process should be carried out in consultation with workers (including contractors and subcontractors) who may be affected by the operation of the SWMS and their health and safety representatives who represented that work group at the workplace.

When a SWMS has been revised, the person conducting a business or undertaking must ensure all:

- 1. persons involved in the work are advised that a revision has been made and how they can access the revised SWMS;
- 2. persons who will need to change a work procedure or system as a result of the review are advised of the changes in a way that will enable them to implement their duties consistently with the revised SWMS: and.
- 3. workers that will be involved in the work are provided with the relevant information and instruction that will assist them to understand and implement the revised SWMS.

1. Preparation	Slips, trips and falls, manual handling injuries	2M	<ul> <li>Identify potential risks prior to starting the job by conducting a thorough safety assessment of the workspace, considering all equipment and processes that will be used.</li> <li>Ensure all workers are wearing appropriat personal protective equipment (PPE), including slip-resistant shoes, gloves for handing materials, and any necessary eye or respiratory protection.</li> <li>Keep workspaces clean, tide and free from obserctions which build cause trips or falls - utilise signage where in cossary to highlight control of the prior of alls - utilise signage where in cossary to highlight control of the prior of alls - utilise signage where in cossary to highlight control of the prior of all of the prior of the pr</li></ul>	1L	
2. Transporting materials	Road Traffic Accidents, equipment damage	ЗН	<ul> <li>Organise transportation routes to avoid high traffic or dangerous areas whenever feasible.</li> <li>Ensure that all drivers have the required training, licences, and are mentally prepared before they operate any vehicle.</li> <li>Secure all materials properly to prevent accidental shifting of loads during transport that could lead to accidents or damage.</li> <li>Regularly maintain vehicles and transportation equipment to ensure they are in proper working order.</li> <li>Equip vehicles with proper safety gear, including first aid kits and emergency contact information.</li> <li>Plan schedules flexibly to prevent rushed driving under pressure.</li> </ul>	2M	

JOB STEP	POTENTIAL HAZARDS	IR	CONTROL MEASURES	RR	RESPONSIBLE PERSON
SPECIFIC WORK STEPS	HAZARDS THAT MAY ARISE	INITIAL RISK	SPECIFIC MEASURES TO BE PUT IN PLACE TO ELIMINATE OR CONTROL THE RISKS	RESIDUAL RISK	NAME OF PERSON
			- Assign appropriate manpower to transport heavy objects and materials; never overload an individual worker or vehicle.		
			- Implement safe manual handling practices and usergonomic equipment if needed.		
			- Use marked vehicles and display warning ans for other and users where necessary.		
			- Implement systems for reporting near misses uncidents, subsequently using this data for risk assessment and prevention mean es.		
			- Equip vehicles with bands-free evices so that driv an communicate safely when necessary.		
			- Keep comparation oper imong off, article ung possible transport risks and providing relainsafety under regularities.		
			- Cor period reviews and drills, reinforcing knowledge about safe transpiration products to avoid complacency.		
			Ensure hat a pipe higher is stored correctly in a secure, designated area when in us, to premote accidental damage or injury.		
			- Programmental and anothing training for all staff members involved in the unpacking and cheecing process to prevent injuries.		
			- ve clear procedures in place for moving heavy objects, including correct lifting techniques and the utilisation of suitable mechanical aids where necessary.		
			- Regularly inspect the pipe notcher upon reception to ensure there are no immediate hazards such as sharp edges, damage from transport, or other safety concerns.		
3. Unpacking &	Injury from incorrect storage, man		- Supply personal protective equipment (PPE) to all staff members involved in this work step, such as hand protection, eye protection, etc.		
Checking	handling injuries	2M	- Implement break times and rotation schedules to lessen the chance of fatigue which could result in manual handling injuries.	1L	
			- Compatible height and weight load regulations should be strictly enforced.		
			- Maintain clean, orderly, and well-ventilated storage conditions to safeguard against slips, trips, falls, or respiratory issues.		
			- All staff should be clearly instructed on the proper securing processes for different types of materials contained in inventory.		
		- Monitor the staff's comprehension and application of safety protocols periodically for quality control.			
			- Continually re-evaluate control measures and make adjustments based on assessments, employee feedback, and workplace changes to ensure optimal health and safety.

#### SIGNATORIES OF THE SAFE WORK METHOD STATEMENT

The signed and dated personnel listed below have cooperated in the consultation and development of this Safe Work Method Statement which has been approved by the Person/s Conducting a Business or Undertaking (PCBU). In signing this Safe Work Method Statement each individual acknowledges and confirms that they have read this SWMS in full, having raised any questions for items on this Safe Work Method Statement that require clarification, and confirms that they are competent, skilled and knowledgeable for the task assigned to them. Every person acknowledges that they have received the relevant training and qualifications where required, before carrying out any work contained in this Safe Work Method Statement. By signing this Safe Work Method Statement each individual agrees to work safely, to follow any safe work instructions which are provided, and agrees to use all Personal Protective Equipment where appropriate.
